

DOORLITE COLLECTION

www.vinylwindowdesigns.com

*"You'll appreciate the quality
we build into every door"*

If you wish to make a statement, upgrading or installing a new front door is a smart investment that adds curb appeal and value to your home.

Artisan Collection

Our Entry Door System

- VWD helps you create an entrance that will be the focal point of your home and a true reflection of your character and style
- Stylish and elegant with a sleek look to fit your lifestyle
- VWD offers a full selection of door glass options such as decorative, obscure, commodity, blinds, or venting choices that suit your taste.

Canterbury

Sullivan Collection

A VWD DOOR IS

*more than just the sum
of its parts*

For over 30 years,
Vinyl Window Designs (VWD)
has maintained its quality standards,
competitive pricing and outstanding
customer service.

VWD has state of the art door machinery. Our Full
House door prep machine automatically cuts the door
lite, bore holes, latch prep precisely etc.

The machinery ensures 100% accuracy as there is no
shaking, no drilling, no hand saws as the doors are cut
automatically.

State-of-the-art Technology

PRIVACY GUIDE

Trimlite offers an extensive line of designs to choose from and the degree of openness or obscurity varies considerably. To help your decision making process we have photographed each design under controlled circumstances so that you can see the difference. With each picture, we have included a number which represents the 'Privacy Level' for that particular design. This number will be referenced on the individual product page as well. Note: this 'guide' is subjective. It should only be used when comparing Trimlite designs.

KNOW THE BEAUTY OF INNOVATION

SPECIFICATIONS

CONSTRUCTION

- Handcrafted, our decorative glass panels stay true to their stained glass roots.
- Our selection of premium art glass and bevels, which makes our designs come to life, are hand cut and fitted. Careful consideration is given to choosing textures, complementing elements are crucial to a design's given appeal.
- Using solid metals, where all of the joints are soldered by hand, ensures the panels will be strong enough to withstand daily use.
- Once assembled, the panel undergoes a thorough cleaning and inspection process. This attention to detail is our assurance of quality to you.

GLASS VARIATION

Decorative pattern glass is handmade. Through this process, slight imperfections or discolourations are inherent characteristics of all handcrafted glass. Bubbles or seeds, slight surface flaws and subtle variations in textures vary depending on the pattern. Some glass patterns, like Swirl and Drawn, are more likely to have these inclusions. They are not considered defects.

Swirl Glass Detail

Drawn Glass Detail

CAMING OPTIONS

Hand soldered metals in 3 finishes. See individual product pages for availability.

Brass Caming

Subtle gloss finish that defines luxury and style.

Patina Caming

Black satin finish offers a rustic or antique look to your home.

Zinc Caming

Brushed chrome appearance brings a contemporary look to your entrance.

INSULATING SYSTEM

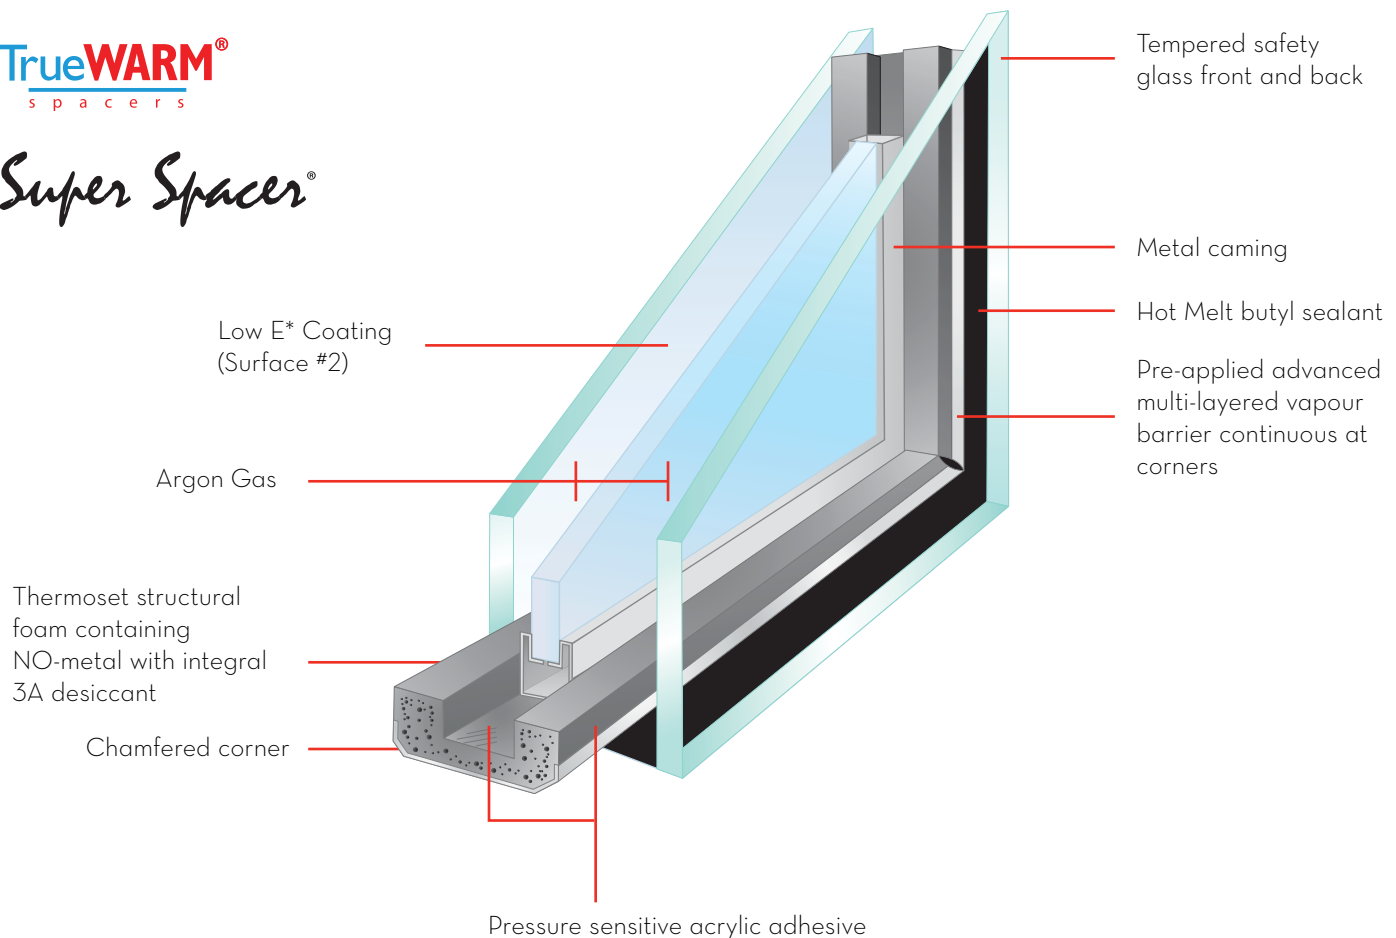

All Trimlite Decorative Doorlites are made with Super Spacer® Cushion Edge™, a flexible, U-shaped, silicone foam tape product used to wrap around and cushion our center decorative panel. Featuring a vapor barrier backing, the product used in combination with Hot Melt butyl, provides a superior Warm-Edge seal.

PERFORMANCE FEATURES

- Warm-Edge Benefits: Superior silicone foam insulation, low thermal conductivity
- Silicone Foam Features: Excellent UV resistance and extreme temperature performance
- Dual-Seal Performance: Chamfered corners for increased sealant depth
- Tempered Safety Glass for your piece of mind
- Low E* with Argon Gas for your comfort

TrueWARM®
s p a c e r s

Super Spacer®

All Trimlite Doorlites are certified by the National Accreditation and Management Institute, Inc. (NAMI).

All Trimlite products are energy tested. Consult your dealer for specific energy ratings.

Warranties: Our products are covered by separate limited warranties. Please contact your dealer for more information.

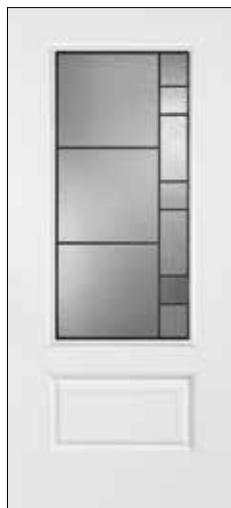

SuperSpacer®, TrueWarm® and Cushion Edge™ are all registered trademarks of QUANNEX BUILDING PRODUCTS.

*Our doorlites are available with Low E and Argon. However, some exceptions may apply. Contact your dealer for more details.

MODERN FARMHOUSE

A balanced blend of modern and rustic, the Modern Farmhouse style continues to be a rising trend. We paired some of our favorite door and glass options that intelligently mix modern and traditional.

AT THE INTERSECTION OF FORM AND FUNCTION

Thoughtful, clean lines, simple design, and peace of mind. These guiding principles inspired us to create the Solution Series. The Solution Series is perfect when you want the glass and the door to be the star, while the frame blends seamlessly into the background.

The Solution Series design eliminates any screw holes, so you don't have to worry about gaps or screw plugs. Our patented* technology uses a compression seal and interlocking joints to adhere to your door, creating a powerful bond. The frame is built to resist warping and melting in high heat areas so it can be used with any color finish. Our textured frame comes in two colors to match any stain or paint.

Glass Size: 2208 Rooftop
Door: DRS00

PRODUCT FEATURES

- Available in white or tan
- Shaker style low profile
- No screws, plugs, or holes
- Textured vertical grain pattern
- Patented frame system
- Connects modern, craftsman, or mid-century architectural styles

BALANCING PRIVACY AND DESIGN

Retro is defined as remaking the past. Our Retro Series is an extension of our I-Lite French Doors that have been remade specifically for our Exterior Doors. We selected our glass designs that balance privacy and design, as we believe your doorlite should always be elegant and safe.

Our glass designs pair perfectly with our standard frame options. And, like decorative designs, these come standard with Low-E and Argon for additional energy efficiency. Although these products may seem new, they are remade for you.

Glass: 2264 Chords

Need more performance in your doorlite... Consider Cardinal LoE²-272 Glass

Available in the clear and white internal grid options, the insulating value of Cardinal's **LoE²-272** patented coating is nearly double that of an ordinary insulated glass unit. In winter, **LoE²-272** reflects heat back into the room. In summer, it rejects the sun's heat and damaging UV rays. The coating is virtually invisible to the eye yet blocks 84% of the sun's harmful ultraviolet rays. In fact, **LoE²-272** is the clearest, highest performing glass you can buy.

Some items are special order. For a complete list of sizes, glass and grid options available in your area, contact your dealer for more information.
