Spacer System

VERSATILE & FLEXIBLE

For new homes, these windows are built to your individual needs with optional nailing fin and brick mould, with jamb returns and frame extensions to fit your type of wall construction

- **Fusion Welded Frame and Sash**
Welding creates a fully sealed, continuous profile that eliminates potential air and water penetration through frame and sash corners.
- **Maintenance Free Solid uPVC Vinyl Profiles**
The multi-chambered design provides structural strength as well as insulating air pockets which reduce heat and cold transfer.
- **Integral Pull Rail**
Permits the single sash to be operated with ease.
- **Built-in Water Management Systems**
Carefully engineered independent drain allows for quick water management to the exterior.
- **Integral Brick Mould with Nail Fin**
Ideal for brick and siding applications, offering cleaner details and improved performance (303BMJ only).

hardware

- **Triple Seal**
Three layers of premium Fin Seal stop air and water as they reduce sound transmission. Benefit from the best sliding seals available!
- **Double Neoprene Bulbs**
Compression style seals close tight where the sash meets the frame and sliding is not required. Our engineers insisted that you get this premium component!
- **Recessed Tilt Latches**
Your operating sash is designed for easy removal when cleaning. Pull down the top tilt style latches and lift out the sash!
- **Cam Locks**
Heavy duty 180 degree locking cams pull your operating sash and frame tightly together for a great seal!
- **Hinged Drain Covers**
Designed to keep bugs out while allowing water to flow to the outside.

Wide Selection of Styles and Configurations

Optional Internal grills for beauty and distinction.

As we are constantly improving our products, specifications may have changed from those herein. Please contact VWD regarding up-to-date specifications.
