The TempSmart™
Spacer System

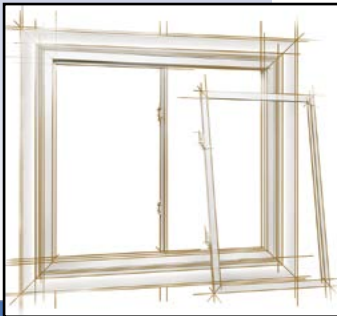

VERSATILE & FLEXIBLE

For new homes, these windows are built to your individual needs with optional nailing fin and brick mould, with jamb returns and frame extensions to fit your type of wall construction

- **Fusion Welded Frame and Sash**
Welding creates a fully sealed, continuous profile that eliminates potential air and water penetration through frame and sash corners.
- **Maintenance Free Solid uPVC Vinyl Profiles**
The multi-chambered design provides structural strength as well as insulating air pockets which reduce heat and cold transfer.
- **Integral Pull Rail**
Permits sashes to be operated with ease.
- **Built-in Water Management Systems**
Carefully engineered independent water management system allows for quick drainage to the exterior.
- **Attachment**
The 365 frame features 3 1/4" standard frame depth for retrofit installations.

- **Double Bond Glazing System**
Flexible dual durometer seals hug the glass from both sides. The system also includes a glazing tape applied to the interior side. The result is an unprecedented barrier against air and water penetration.
- **Commercial Glazing Technique**
Exterior glass stops, combined with the Double Bond Glazing, are more effective in maintaining a well-sealed window.
- **High Performance Glass Options**
Choose Solar Gain Low E for free solar heat or Solar Shield Low E for reducing solar heat gain. Argon and Krypton Gas fillings will maximize heat savings! KeepSafe Glass is the laminate of choice for security, quiet and safety! E-Clean Glass uses the energy of the sun to reduce dirt on your glass.
- **Warm Edge Spacer Technology**
Only the best warm edge spacers will reduce perimeter condensation on an insulating glass unit, fight mold and increase the comfort of your home.
- **IGMA Approved**
Certification Numbers - Stainless #2521-P, TempSmart™ #2248

hardware

- **Lift Out Sash Removal**
Both sashes completely lift out of the frame without the use of tools or complicated manipulation.
- **Brass Rollers**
Large sashes glide smoothly on durable, corrosion resistant brass rollers.
- **Weatherstrip for Results**
Premium quality fin seal is the weather resistant design that is ideal for sliders.
- **Cam Locks**
Heavy duty 180 degree locking cams pull your sashes tightly together for a great seal!
- **Hinged Drain Covers**
Designed to keep bugs out while allowing water to flow to the outside.
- **Smart Screen**
Hidden springs result in clean lines and smooth operation.
