PRIVACY GUIDE

Trimlite offers an extensive line of designs to choose from and the degree of openness or obscurity varies considerably. To help your decision making process we have photographed each design under controlled circumstances so that you can see the difference. With each picture, we have included a number which represents the 'Privacy Level' for that particular design. This number will be referenced on the individual product page as well. Note: this 'guide' is subjective. It should only be used when comparing Trimlite designs.

Please Note: Due to ongoing product development Trimlite reserves the right to make changes in design, materials and specifications without notice. Please contact your dealer for more information.

Doorlites featured in either smooth (white), woodgrain (stained), or fir (stained) fiberglass doors. Some exceptions apply. Door slabs supplied by Plastpro, inc., a leading manufacturer of fiberglass door products. Contact your dealer for a complete list of Plastpro products available in your area.

SPECIFICATIONS

CONSTRUCTION

- Handcrafted, our decorative glass panels stay true to their stained glass roots.
- Our selection of premium art glass and bevels, which makes our designs come to life, are hand cut and fitted. Careful consideration is given to choosing textures, complementing elements are crucial to a design's given appeal.
- Using solid metals, where all of the joints are soldered by hand, ensures the panels will be strong enough to withstand daily use.
- Once assembled, the panel undergoes a thorough cleaning and inspection process. This attention to detail is our assurance of quality to you.

GLASS VARIATION

Decorative pattern glass is handmade. Through this process, slight imperfections or discolourations are inherent characteristics of all handcrafted glass. Bubbles or seeds, slight surface flaws and subtle variations in textures vary depending on the pattern. Some glass patterns, like Swirl and Drawn, are more likely to have these inclusions. They are not considered defects.

Swirl Glass Detail

Drawn Glass Detail

CAMING OPTIONS

Hand soldered metals in 3 finishes. See individual product pages for availability.

Brass Caming

Subtle gloss finish that defines luxury and style.

Patina Caming

Black satin finish offers a rustic or antique look to your home.

Zinc Caming

Brushed chrome appearance brings a contemporary look to your entrance.

INSULATING SYSTEM

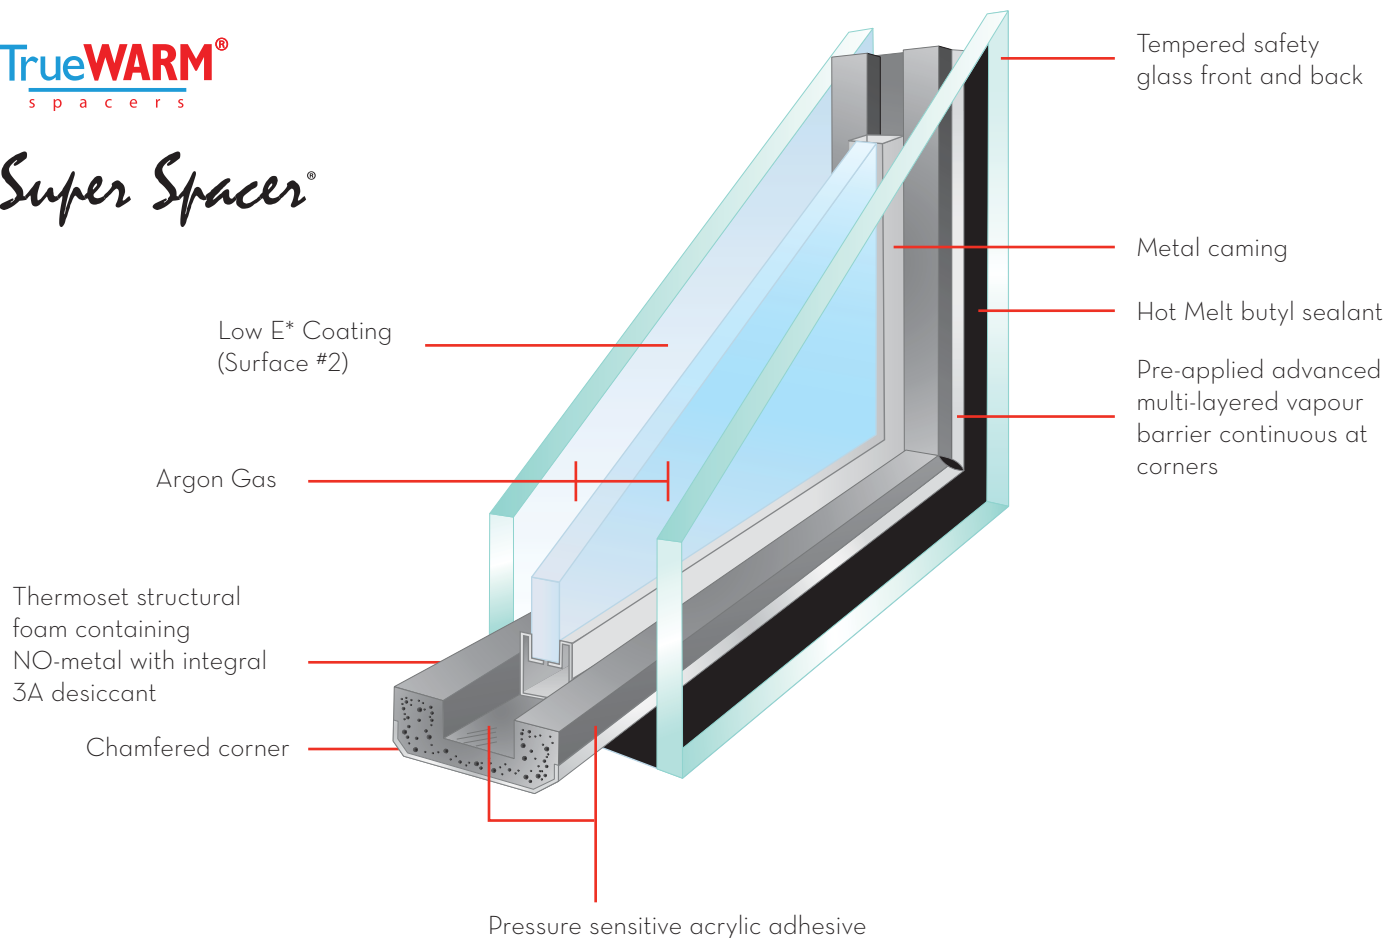

All Trimlite Decorative Doorlites are made with Super Spacer® Cushion Edge™, a flexible, U-shaped, silicone foam tape product used to wrap around and cushion our center decorative panel. Featuring a vapor barrier backing, the product used in combination with Hot Melt butyl, provides a superior Warm-Edge seal.

PERFORMANCE FEATURES

- Warm-Edge Benefits: Superior silicone foam insulation, low thermal conductivity
- Silicone Foam Features: Excellent UV resistance and extreme temperature performance
- Dual-Seal Performance: Chamfered corners for increased sealant depth
- Tempered Safety Glass for your piece of mind
- Low E* with Argon Gas for your comfort

TrueWARM®
s p a c e r s

Super Spacer®

All Trimlite Doorlites are certified by the National Accreditation and Management Institute, Inc. (NAMI).

All Trimlite products are energy tested. Consult your dealer for specific energy ratings.

Warranties: Our products are covered by separate limited warranties. Please contact your dealer for more information.

SuperSpacer®, TrueWarm® and Cushion Edge™ are all registered trademarks of QUANNEX BUILDING PRODUCTS.

*Our doorlites are available with Low E and Argon. However, some exceptions may apply. Contact your dealer for more details.

MODERN FARMHOUSE

A balanced blend of modern and rustic, the Modern Farmhouse style continues to be a rising trend. We paired some of our favorite door and glass options that intelligently mix modern and traditional.

BALANCING PRIVACY AND DESIGN

Retro is defined as remaking the past. Our Retro Series is an extension of our 1-Lite French Doors that have been remade specifically for our Exterior Doors. We selected our glass designs that balance privacy and design, as we believe your doorlite should always be elegant and safe.

Our glass designs pair perfectly with our standard frame options. And, like decorative designs, these come standard with Low-E and Argon for additional energy efficiency. Although these products may seem new, they are remade for you.

AT THE INTERSECTION OF FORM AND FUNCTION

Thoughtful, clean lines, simple design, and peace of mind. These guiding principles inspired us to create the Solution Series. Offering a selection of glass textures in sizes that allow your door to be the star.

A perfect complement to the glass is our Solutions Frame. Our unique design eliminates any screw holes, so you don't have to worry about gaps or screw plugs. Our patented* technology uses a compression seal and interlocking joints to adhere to your door, creating a powerful bond. The frame is built to resist warping and melting in high heat areas so it can be used with any color finish. Our textured frame comes in two colors to match any stain or paint.

Need more performance in your doorlite... Consider Cardinal LoE²-272 Glass

Available in the clear and white internal grid options, the insulating value of Cardinal's **LoE²-272** patented coating is nearly double that of an ordinary insulated glass unit. In winter, **LoE²-272** reflects heat back into the room. In summer, it rejects the sun's heat and damaging UV rays. The coating is virtually invisible to the eye yet blocks 84% of the sun's harmful ultraviolet rays. In fact, **LoE²-272** is the clearest, highest performing glass you can buy.

Some items are special order. For a complete list of sizes, glass and grid options available in your area, contact your dealer for more information.

SPECIAL ORDER GRIDS

Additional grid options available in various colours, sizes and patterns, contact your dealer for more information.

A VWD DOOR IS

*more than just the sum
of its parts*

For over 30 years, Vinyl Window Designs (VWD) has maintained its quality standards, competitive pricing and outstanding customer service.

VWD has state of the art door machinery. Our Full House door prep machine automatically cuts the door lite, bore holes, latch prep precisely etc.

The machinery ensures 100% accuracy as there is no shaking, no drilling, no hand saws as the doors are cut automatically.
